PROFESSIONAL SUMMARY

Salesforce DevOps Engineer with 3+ years of expertise in CI/CD pipeline automation, version control, and release management. Proficient in Jenkins, Git, and branching strategies (Feature, Release, Hotfix). Skilled in Salesforce deployments, pull request management, merge conflict resolution, and collaboration with QA teams. Certified Salesforce Administrator and Platform App Builder with hands-on experience in Salesforce Health Cloud and metadata management. Adept at improving deployment processes, ensuring code quality, and implementing automated testing frameworks.

WORK EXPERIENCE

Application Development Analyst

Accenture Solutions Private Limited | Feb 2022 – Present

- Designed and maintained CI/CD pipelines using Jenkins, automating build, test, and deployment processes, reducing manual efforts by 40%.
- Managed version control with Git, resolving merge conflicts and implementing branching strategies (Feature, Release, Hotfix) for streamlined development.
- Planned and coordinated release cycles, ensuring standardized deployment procedures and implementing rollback strategies when required.
- Collaborated with cross-functional teams to maintain a comprehensive checklist for each release, ensuring smooth and error-free deployments.
- Collaborated with Development and Testing Teams to close sprints on time, ensuring timely delivery of features and bug fixes.
- Managed users, profiles, user creations, roles, and permissions to enforce security best practices and maintain proper access control.
- Worked on Salesforce Health Cloud for Novartis, ensuring compliance with healthcare industry standards.
- Created deployment checklists and configuration tracker documents to support agile development sprints.
- Promoted deployments across environments (Production, QA, UAT, Dev) and managed Sandbox refresh/creation for developer access.
- Utilized Visual Studio Code for Salesforce metadata management and resolving conflicts.
- Synced data across branches using Dev Sync Up activities, ensuring consistency across environments.
- Deployed page layout changes from Business team modifications to QA and Production environments.
- Excellent team member with strong ability to balance project workload.

TECHNICAL SKILLS

- **CI/CD Tools:** Jenkins
- **Version Control & Release Management:** Git, Bitbucket, Feature & Release Branching
- **Salesforce Deployment:** Salesforce Health Cloud, Metadata API, Change Sets
- **Scripting & Automation:** Shell Scripting (basic), Python
- **Development Tools:** Visual Studio Code, SFDX
- **Project Management Tools:** Jira, Confluence

CERTIFICATIONS

- Salesforce Certified Administrator
- Salesforce Certified Platform App Builder

EDUCATION

Bachelor of Technology in Computer Science Engineering

Srinivasa Institute of Engineering and Technology | Graduated in 2021

PROJECT DETAILS

Project Name: Novartis

Domain: HealthCare

Work nature: Salesforce DevOps

- Implemented CI/CD pipelines using Jenkins, reducing deployment time and manual efforts by 40%.
- Improved version control practices, achieving zero merge conflicts and streamlined release management.
- Integrated automated testing frameworks, enhancing code quality and reducing deployment failures.
- Promoting code from one environment to other environment.
- Executed Dev Sync Up activities to maintain branch consistency and ensure smooth transitions.
- Involved in pushing the code the destination branch of QA and PROD in bitbucket and then deploying to through Jenkins in Sandbox.
- Involved in daily stand-up meetings as a part of Agile Methodology.
- Taking complete ownership of the tasks that I work.

SOFT SKILLS

- Strong problem-solving and analytical abilities
- Effective communication and collaboration
- Agile methodology expertise

DECLARATION

I hereby assure that the above information is true to my knowledge and I will prove to be worthy of your confidence and satisfaction.
